

Manual circular saw with carbide tipped blade / straight & mitre cutting

Ref : AL 350 V2

STANDARD EQUIPMENT

- Carbide blade for aluminium Ø 350 mm, bore 25.4 mm
- Motor 5 HP – three phase 400 V
- Pivoting head & table, mitre cutting up to 45° right and left
- 45° length stopper - Worktop height : 860 mm
- 2 pneumatics vices with rapid adjustment
- Pneumatic spray lubrication
- Tightening and spraying controlled simultaneously by operating the lowering lever
- Dual carter
- Double-action control
- Equipment supplied with CE marking and CE certificate machine

CUTTING CAPACITIES			
			
90° cut	100	110	170x80
45° cut	80	110	120x70

EQUIPMENT ON REQUEST

- **LIGHT 24 V**
- **2 SPEED MOTOR 2 HP/ 1500 rpm / min – 3 HP/ 3000 rpm / min**
Used for a setup with carbide milling cutter for ferrous metal
- **THREE-PHASE ELECTRONIC SPEED VARIATOR (700 to 3000 rpm / min)**
- **CARBIDE TIPPED BLADE FOR ALUMINIUM Ø 350 mm**
- **CARBIDE TIPPED BLADE FOR STEEL Ø 350 mm**
- **INDUSTRIAL VACUUM FOR STEEL CHIPS DM/1-2HP – vacuum with a bag**
